Department of Family and Consumer Sciences

Dr. Lisa LeBleu, Chair
340B Gooch Hall
731-881-7100
fax 731-881-7106

Faculty
Mira Ahn, Georgina Awipi, Sue G. Byrd, Martha C. Herndon, Lisa C. LeBleu, Lori H. Littleton

Mission
The mission of the Department of Family and Consumer Sciences at The University of Tennessee at Martin is twofold. The primary mission is to prepare professionals who help promote a better quality of life for individuals and families, enhancing the interrelationships of people and communities in diverse social, economic and physical environments. For graduates who wish further specialization, the curriculum prepares them for advanced training or degrees such as UT Martin’s Master of Science degree in Family and Consumer Sciences.

A complementary mission of the department is to provide service courses for individual and curricular needs of students outside the major, as well as professional and non-professional persons in the region. Dietetics and Child and Family Programs improve the quality of life for the individuals and families in the region through public service and research.

Expected Outcomes
Upon completion of curriculum requirements for the major Family and Consumer Sciences, students will be able to:

1. utilize computers and the latest technologies in all aspects of their careers, particularly as managerial and instructional tools.
2. use professional skills for effective communication, team building and decision making consistent with standards of ethical practice.
3. exhibit appropriate interpersonal skills and professional attitude in professional and community settings.
4. engage in professional networking in their area of specialization.
5. be knowledgeable and active in the legislative process of public policy, as it relates to the student’s specific discipline.
6. interact effectively with individuals and families, taking into consideration social, psychological and cultural differences.
7. apply physical/biological and social sciences foundation in family and consumer sciences careers.
8. apply knowledge gained from the student’s speciality area in family and consumer sciences careers.
9. apply critical thinking skills for analysis of social, economic and political issues.
**Major**

The department is accredited by the Council for Accreditation of the American Association of Family and Consumer Sciences. The undergraduate curriculum prepares students for the degree, Bachelor of Science in Family and Consumer Sciences. The major is called Family and Consumer Sciences and offers three concentrations. The student will select one of the following concentrations.

- **Child, Family, and Consumer Sciences and Education**
  - Option 1: Child and Family Studies (1212)
  - Option 2: Family and Consumer Sciences Education (1213)

- **Food and Nutrition/Dietetics (1214)**

- **Interior Design/Fashion Merchandising (1218-INTD and 1218-TCFM)**
  - Option 1: Interior Design
  - Option 2: Textiles, Clothing, and Fashion Merchandising

Family and consumer sciences majors must earn a minimum grade of C in all required family and consumer sciences subject-matter courses. The student can complete the total number of 120 semester hours in four academic years (two semester terms per year) if the student schedules a regular course load of 16 to 18 hours each term. If a student needs to carry more than 20 hours at one time, special permission of the dean of the college is required.

Study beyond the baccalaureate degree is necessary to attain membership and credentials in certain professional organizations such as the American Society of Interior Designers (ASID) and the American Dietetic Association (ADA). Advanced degrees are required for leadership and specialist positions, for college teaching, and for many career promotions. The master’s degree is described in the graduate section of the catalog.

**Minor**

A minor in family and consumer sciences is available to non-majors by taking 18 hours of family and consumer sciences core courses which provide a basis for nine semester hours of upper-division electives. The minor consists of the following courses: Child and Family Studies 100 or Consumer Resource Management 202 (3), Nutrition 100 or Food Science 200 (3), Interior Design 100 or Textiles, Clothing, and Fashion Merchandising 102 (3), and selected courses for nine semester hours at the upper division. The electives should be approved by an adviser in the Department of Family and Consumer Sciences. Three of the nine hours intended for electives may be at the lower division if a prerequisite is being satisfied for the remaining upper-division courses.

The Fashion Merchandising minor consists of Textiles, Clothing, and Fashion Merchandising 102 and Textiles, Clothing, and Fashion Merchandising 200 and twelve additional hours of upper-division Fashion Merchandising (TCFM) courses.

Students majoring in Family and Consumer Sciences are not required to complete a minor in a supporting academic discipline. However, family and consumer sciences students have the option, and may elect to do so. The option for completing a minor is especially well suited to the concentration in interior design/fashion merchandising. The choice to complete a minor means that the student must comply with the stated guidelines for the selected minor. Additional hours may be needed in pursuing a minor.
Modern classroom and laboratory facilities are housed in Gooch Hall for almost all family and consumer sciences courses. Separate facilities exist, serving as laboratories for courses in child and family studies. The Margaret N. Perry Children’s Center is a facility providing services designed for the social and educational enrichment of young children. This includes a kindergarten-readiness program. Services are also available at the center for school-aged children after school.

The Child and Family Resource Center is another facility, housing the Infant Stimulation Program which provides services to preschool children who are developmentally delayed and their families. This program also has a second location in Paris. Students interested in careers in this field do observations at these facilities.

Other specially funded programs which are a part of the Department of Family and Consumer Sciences include: Tennessee’s Early Intervention Program—providing service coordination, referral, and support services to children with developmental delays and their families; Northwest Tennessee Child Care Resource and Referral—providing services, referrals, training, and materials to child care providers; Infant Stimulation Program—providing educational assistance and speech therapy to developmentally delayed young children; and Healthy Start—providing parent education for first-time parents.

Student Organizations

UT Martin Family and Consumer Sciences students are active in the Preprofessional/Graduate Student Group of the American Association of Family and Consumer Sciences, the Fashion Merchandising Association, the Interior Design Group, the Student Dietetic Association, and Phi Upsilon Omicron. These organizations provide opportunities for students to interact socially and professionally.

Internships and Supervised Field Experience

A supervised field experience or an undergraduate internship may be selected by the student with the intent of developing specialization in one’s preferred career. A student must have a minimum 2.50 cumulative grade point average in order to enroll in field experience. For students enrolled in Family and Consumer Sciences Education, the supervised field experience is supervised student teaching.

Concentrations in the Family and Consumer Sciences Major

Common to all Family and Consumer Sciences concentrations is a core component consisting of the following courses:

<table>

Total Hours..................................................................................16

The additional degree requirements for each program are identified on the following pages.
Child, Family and Consumer Sciences and Education
Concentration

The child, family, and consumer sciences and education concentration includes two options: Child and Family Studies and Family and Consumer Sciences Education. The concentration is designed to provide a broad-based education in child development and family relationships and Family and Consumer Sciences, while allowing flexibility in course work to meet individual career goals. Students in the concentration prepare for career opportunities such as: child care provider, parent educator, child development specialist, family services director, community services worker, early intervention teacher, family and consumer sciences teacher, and 4-H agent. Observations of young children and hands-on experiences at the Margaret N. Perry Children's Center, with child and family grant programs and student teaching for those in the family and consumer sciences education option, in addition to course work, provide the means for the student to gain the knowledge and skills needed in the field.

Family and Consumer Sciences Education graduates meet the requirements for secondary licensure (grades 7-12) to teach vocational Family and Consumer Sciences in Tennessee. The certificate is also valid in states which grant reciprocity in licensure to graduates of institutions accredited by NCATE (National Council for the Accreditation of Teacher Education) or which participate in reciprocity agreement developed by NASDTEC (National Association of State Directors of Teacher Education and Certification). The program is offered in cooperation with the College of Education and Behavioral Sciences which governs admission requirements to teacher education and exit requirements for the Praxis Series specialty area exams and for the recommendation for certification.

Students must file an application and be admitted to the teacher education program for eligibility to enroll in professional education courses (refer to “Admission to Teacher Education” section for the criteria for admission). Continuation in the program and recommendations for licensure are dependent upon fulfilling the requirements stipulated. Those graduates recommended for certification apply for endorsement in Vocational Family and Consumer Sciences, and, if eligible, for additional endorsement in one or more occupational family and consumer sciences areas.

To qualify for added endorsements in occupational family and consumer sciences, students are required to complete 14-15 semester hours in each subject matter area related to the endorsement.

Degree Requirements

I. Family and Consumer Sciences Core Component ......................................................... 16 hours
   (see earlier page)

II. General Education Component ................................................................................ 47-48 hours
   Art 221
   Chemistry 111-112 or Chemistry 121-122 or Biology 110-120
   Communications 230
   Human Learning 311
   Economics 201 or 202
   English 110 or 111, 112
   Mathematics 140
   Microbiology 251 or Zoology 201
   Psychology 110 or 120 or Sociology 201
   Fine Arts (Aesthetics) Elective (3 hours) from approved general education listing
   History Elective (3 hours) selected from History 121, 122, 201, or 202
   Humanities Electives (6 hours) selected from approved general education listing
III. **Family and Consumer Sciences Component** .......................................................... 22-25 hours
Child and Family Studies 303, 411
Food Science 200 or 313
Consumer Resource Management 302
Consumer Resource Management 403 or Interior Design 210
Nutrition 322
Textiles, Clothing & Fashion Merchandising 303
Textiles, Clothing & Fashion Merchandising 103 or Textiles, Clothing & Fashion Merchandising 415 (for Family and Consumer Sciences Education option only)

IV. **Professional Development Component** .............................................................. 32-35 hours

**Child and Family Studies Option**
Electives in Child and Family Studies 9 hours
(Courses selected to meet student's own interest in specialization for career)
Child and Family Studies 211
Electives Unspecified 11 hours (Courses to be selected to meet student’s own interest in specialization for career)
Select Alternative A or B to complement electives and to develop specialization. Certain combinations of the two alternatives may be approved.
A. Supervised Field Experience: Family and Consumer Sciences 460, 48-, 49-
B. Approved Electives 300-400

**Family and Consumer Sciences Education Option**
Family and Consumer Sciences Education 330*, 340*, 404*, 405*
Child and Family Studies 211
Communication 231
Special Education 300
Teacher Education 211, 303*, 305*

*Admission to Teacher Education required for courses marked with an asterisk.

**Total required for a B.S.F.C.S. degree** ................................................................. 120 hours
A minimum of 36 hours is required in upper-division courses.

**Food and Nutrition/Dietetics Concentration**

The concentration is a didactic program and is currently granted developmental accreditation by the Commission on Accreditation for Dietetics Education of the American Dietetic Association, 216 W. Jackson Blvd., Chicago, IL 60606-6995, 312/899-4876. Students who successfully complete the program are qualified to apply for accredited dietetic internships or approved preprofessional practice programs as means for achieving eligibility for active membership in the American Dietetic Association (ADA) and for writing the examination for registered dietitian (RD) status. Detailed information is available from the dietetics program director about special costs and requirements of students in the program. Graduates from the dietetics concentration also may seek direct employment in such areas as school food service, extended-care facilities, and commercial or industrial food services.
Degree Requirements

I. **Family and Consumer Sciences Core Component** .................................................... 16 hours
   (see earlier page)

II. **General Education Component** ............................................................................... 54-55 hours
    Biology 300
    Chemistry 111-112
    Communications 230
    Economics 201-202
    English 110 or 111, 112
    Mathematics 140, 210
    Microbiology 251
    Psychology 110 or 120
    Zoology 201
    Fine Arts (Aesthetics) Elective (3 hours) from approved general education listing
    Humanities Elective (9 hours) from approved general education listing

III. **Family and Consumer Sciences Component** ....................................................... 28 hours
     Consumer Resource Management 302 or Child and Family Studies 303
     Food Science 200, 313
     Food Systems Management 203, 312, 410
     Nutrition 322, 433, 443

IV. **Business Component** ................................................................................................... 9 hours
    Accounting 300
    Management 301, 350

V. **Professional Development Courses** ........................................................................ 13 hours
    Select Option A for completion of the CADE developmentally accredited didactic program.
    Select Options B or C or certain combinations of B and C for completion of a non-CADE
devolutionally accredited program.
    A. Supervised Field Experience: Family and Consumer Sciences 487, 497; Food Systems
       Management 415; Nutrition 455
    B. Supervised Field Experience: Family and Consumer Sciences 460, 482, 492
    C. Approved Electives: 300-400

**Total required for a B.S.F.C.S. degree** ......................................................................... 120 hours
A minimum of 36 hours is required in upper-division courses.

**Interior Design/Fashion Merchandising Concentration**

In the Interior Design/Fashion Merchandising concentration a student may choose a specialized subject area
from the following options: Interior Design or Textiles, Clothing, and Fashion Merchandising. The student
has the choice of selecting unspecified electives or a minor in a supporting discipline. Minors in art, business
administration, communications, sociology, political science, psychology, and others are useful selections for
complementing the major. An important component of the curriculum which contributes to professional development is supervised field experience. The experience offers each student additional means for individual specialization. Enrollment in supervised field experience courses requires a minimum 2.50 cumulative grade point average. As an alternative to the supervised field experience, students can earn credits in approved, upper-division electives.

Careers in both traditional and non-traditional settings are open to graduates. Entry-level positions of recent graduates include department manager for a major retail store, residential interior designer, wholesale representative, and a buyer for a retail store. Many contemporary issues of society-at-large call for the services of the family and consumer sciences graduate who seeks to affect the lives of individuals and families in positive ways.

**Degree Requirements**

I. **Family and Consumer Sciences Core Component** ................................................................. 16 hours
   (see earlier page)

II. **General Education Component** ................................................................................ 45-46 hours
   - Art 221
   - Chemistry 111-112 or 121-122 or Biology 110-120 plus one additional Biological and Physical Systems course from the approved general education listing
   - Communications 230
   - Economics 201 or 202
   - English 110 or 111, 112
   - Mathematics 140
   - Psychology 110 or 120
   - Fine Arts (Aesthetics) Elective (3 hours) from approved general education listing
   - Humanities Elective (9 hours) from approved general education listing

III. **Family and Consumer Sciences Component** ............................................................... 18 hours
   - Textiles, Clothing and Fashion Merchandising  102 or Interior Design 210
   - Textiles, Clothing and Fashion Merchandising  200 or Interior Design 340
   - Consumer Resource Management 302
   - Textiles, Clothing and Fashion Merchandising 303 and 306
   - Consumer Resource Management 403 or Textiles, Clothing and Fashion Merchandising  305

IV. **Professional Development Component** ........................................................................... 27 hours
   - **Interior Design Option**
     - Marketing 301
     - Choose 12 hours from the following courses:
       - Interior Design 302
       - Interior Design 410, 411, 412
       - Interior Design 442
       - Interior Design 443
       - Interior Design 450
     - Select option A or B to develop specialization. Certain combinations of two options may be approved.
       A. Supervised Field Experience: Family and Consumer Sciences 460, 484, 494 (12 hours)
       B. Approved Electives: 300-400 (12 hours)
Agriculture and Applied Sciences

Fashion Merchandising Option
Marketing 301
Choose 12 hours from the following courses:
- Textiles, Clothing and Fashion Merchandising 103
- Textiles, Clothing and Fashion Merchandising 307
- Textiles, Clothing and Fashion Merchandising 308
- Textiles, Clothing and Fashion Merchandising 309
- Textiles, Clothing and Fashion Merchandising 405

Select option A or B to develop specialization. Certain combinations of two options may be approved.
A. Supervised Field Experience: Family and Consumer Sciences 460, 485, 495 (12 hours)
B. Approved Electives: 300-400 (12 hours)

V. Electives Component: Unspecified ................................................................. 14 hours
Courses selected may be used for a declared minor in a supporting discipline.

Total required for a B.S.F.C.S. degree ............................................................... 120 hours
A minimum of 36 hours is required in upper-division courses.

Courses Offered by Department of Family and Consumer Sciences

Child and Family Studies 100 Lifespan Human Development (F)
Child and Family Studies 211 Child Growth and Development (F, Sp)
Child and Family Studies 303 Family Relationships (Sp)
Child and Family Studies 311 Developmentally Appropriate Activities (as needed)
Child and Family Studies 312 Parenting Fathers, Mothers, and Children (as needed)
Child and Family Studies 313 Child Guidance and Discipline (as needed)
Child and Family Studies 411 Preschool Laboratory Practicum (Sp)
Child and Family Studies 412 Early Childhood Program Administration (as needed)
Child and Family Studies 421 Adult Development (as needed)
Child and Family Studies 442 (642) Developmental Disabilities in Children (F)
Child and Family Studies 443 (643) Community Care and Curriculum Planning for Developmentally Disabled Preschool Children (Sp)

Consumer Resource Management 202 Consumers and the Market (as needed)
Consumer Resource Management 205 Cultural Etiquette (Sp)
Consumer Resource Management 210 Leadership Roles in Resident Settings (Sp)
Consumer Resource Management 302 Personal and Family Finance (F)
Consumer Resource Management 403 (603) Housing and Home Equipment (F)
Consumer Resource Management 413 (613) Resource Management for Special Groups (as needed)
Consumer Resource Management 711 Consumption and Standards of Living (as needed)
Consumer Resource Management 712 Housing Programs and Policies (as needed)
Consumer Resource Management 713 Environmental Design (as needed)
