## The University of Tennessee at Martin Animal Science Concentration, 2004-2005

---

### Career Opportunities

Many exciting and rewarding career opportunities await the animal science graduate in today's ever-changing society. While the animal husbandry field was once primarily confined to those with a vast amount of practical experience with farm animals, the needs of a modern animal industry have created many new careers for the traditional farm student and those urban students with a keen interest in animals.

The program leading to the bachelor of science in agriculture with a concentration in animal science is offered through the UT Martin College of Agriculture and Applied Sciences. The program combines basic science and technical courses related to the production and use of animal products with a sound background in humanities and social sciences. Through the wise use of elective courses, a student can focus on animal production and management or animal biotechnology. Of particular interest is the demand for women and minority students to fill positions of responsibility in the animal industry.

### Employment Possibilities

A wide variety of professional careers are available to the animal scientist in vocations such as farm and livestock management, Agricultural Extension Service, livestock procurement, federal meat grading, federal and state livestock and meat inspection, and market news reporting. There are also careers in the business-related areas of animal production such as fertilizer, seed and animal health products sales, farm loan representatives and banking. Excellent opportunities are available for those with special training in agricultural communications, working on farm magazines and journals, as breed association field representatives with livestock associations and in public relations. For the student desiring to pursue an advanced degree, the bachelor's in agriculture with a concentration in animal science prepares individuals for further studies in agricultural economics, business administration, food technology, animal biotechnology, and other studies leading to careers in teaching and research.

### Facilities

A nearby 700-acre UT Agricultural Experiment Station and UTM Agricultural Field Teaching/Demonstration Complex is available for research, teaching, and demonstration. Modern agricultural laboratories and class-rooms are located in Brehm Hall and the West Tennessee Agricultural Pavilion. The student is taught to use the computer, and numerous computer facilities are available for the student's convenience. In some cases, field trips are made to nearby industries and farms to learn their operating procedures.

### For More Information

Please Contact: Dr. Jerry Gresham, Chair  
Department of Agriculture and Natural Resources  
257 Brehm Hall

# Program of Study, Business Option

This list includes all courses required; however, the sequence may be flexible.

## Freshman Year

### Fall

Biology 110: Introductory Cell Biology and Genetics . .	4
English 111: English Composition . . . . .	3
Math 140: College Algebra and Elementary Functions	3
Animal Science 110: Introduction to Animal Science .	3
Animal Science 119: Introduction to Animal Science Laboratory . . . . .	1
<u>Plant Science 110: Introductory Plant and Soil Science</u>	<u>3</u>
Total Hours . . . . .	17

### Spring

Biology 120: Introductory Plant and Animal Biology . .	4
English 112: English Composition . . . . .	3
Math 160 or 210: Calculus for Business and Life Sciences or Elementary Statistics and Probability . . . .	3
Agricultural Economics 110: Introduction to Agricultural Business . . . . .	3
<u>Agricultural Engineering Technology 110: Introduction to Agricultural Engineering</u> . . . . .	<u>3</u>
Total Hours . . . . .	16

## Sophomore Year

### Fall

Chemistry 121: General Chemistry . . . . .	4
Animal Science 240: Live Animal and Carcass Selection and Evaluation . . . . .	3
Animal Science 330: Basic Meat Science . . . . .	3
Business Elective* . . . . .	3
<u>Social Dynamics Elective*</u> . . . . .	<u>3</u>
Total Hours . . . . .	16

### Spring

Chemistry 122: General Chemistry . . . . .	4
Communications 230: Public Speaking . . . . .	3
Soil Science 210: Introduction to Soil Science . . . . .	4
Animal Science 360: Breeding and Improvement of Farm Animals and Poultry . . . . .	3
<u>Global Dynamics Elective*</u> . . . . .	<u>3</u>
Total Hours . . . . .	17

## Junior Year

### Fall

Agriculture 390: Career Planning in Agriculture . . . . .	2
Animal Science 340: Basic Animal Nutrition . . . . .	3
Animal Science 371: Anatomy and Physiology of Domestic Animals . . . . .	4
Business Elective* . . . . .	3
Microbiology 251,310, or 311: General Bacteriology, General Molecular Microbiology, or Public Health <u>Microbiology</u> . . . . .	<u>4</u>
Total Hours . . . . .	16

### Spring

Animal Science 350: Applied Animal Nutrition . . . . .	3
Animal Science 372: Applied Animal Reproduction . .	3
Philosophy 160: Introduction to Ethics . . . . .	3
Business Elective* . . . . .	3
<u>Writing /Speaking Elective*</u> . . . . .	<u>3</u>
Total Hours . . . . .	15

## Senior Year

### Fall

Animal Production Requirement* . . . . .	3
Business Electives* . . . . .	9
<u>General Elective*</u> . . . . .	<u>3</u>
Total Hours . . . . .	15

### Spring

Animal Production Requirement* . . . . .	3
Business Electives* . . . . .	6
<u>Aesthetics Elective*</u> . . . . .	<u>3</u>
Total Hours . . . . .	12
