The Master of Science in Education with a Major in Counseling has two concentrations: 1) School Counseling and 2) Mental Health/Community Counseling. The Graduate Faculty has adopted the theme, "Professional Educators as Leaders and Enhancers of Human Development," to represent its goal in continuing an educator's professional development. The advanced program goals and conceptual framework are depicted as four keys that the graduate faculty feels will unlock each candidate's potential. They are: **Key 1 Knowledge, Skills and Application, Key 2 Human Relations, Key 3 Inquiry, and Key 4 Professional and Ethical Behavior.** Inherent within each key component are outcomes that the candidate is expected to master upon completion of their individual program. These keys are linked together by the faculty's commitment to diversity, technology, and assessment.
