

MASTER OF SCIENCE IN EDUCATION
 WITH A MAJOR IN TEACHING FOR INITIAL LICENSURE (ELEMENTARY & SECONDARY)
 "EDUCATORS AS FACILITATORS OF LEARNING"

2010-2011

The Master of Science in Education with a Major in Teaching for Initial Licensure Program is available for those students who have obtained a baccalaureate degree from an accredited college or university and wish to obtain a teaching license. The Graduate Faculty has adopted the theme, "Educators As Facilitators of Learning," to represent its goal in continuing an educator's professional development. The advanced initial licensure program goals and conceptual framework are depicted as three keys that the graduate faculty feels will unlock each candidate's potential. They are: **Key 1 Knowledge, Skills and Application, Key 2 Reflective Practice, and Key 3 Professional and Ethical Behavior.** Inherent within each key component are outcomes that the candidate is expected to master upon completion of their individual program. These keys are linked together by the faculty's commitment to diversity, technology, and assessment.
