

LONDON AND PARIS

NURSING TRAVEL-STUDY

SPRING BREAK 2010

March 11th-21st

Join us for this historical and global tour of nursing. The program emphasizes the beginning of modern nursing with a visit to the Florence Nightingale Museum and other sites in England and France. We will visit historical sites and practice settings for nursing in England and France, explore health care systems, determine practice standards, public health concerns, governance, clinical effectiveness, and patient issues for each country. Finally, we will compare diverse patient needs based on cultural awareness through the arts and science for each country by touring the Florence Nightingale Museum, St. Thomas Hospital, Whipps Cross University Medical Center, Sigmund Freud Museum, Westminster Abbey, British Museum, Buckingham Palace and the Tower of London. In Paris our adventures will include visiting the American Hospital, and other health care facilities, plus the Louvre, Eiffel Tower, and Versailles.

Approximate cost: \$3,250 (*price subject to change*)
