1		I believe that the program could be improved if the teacher advisors had more one on one involvement with the students. During my time the only interaction I had was to email my advisor with the classes i was going to take to get my hold taken off. I believe this caused me to take longer to complete my program due to not having help choosing needed classes.
2		I have been very pleased with the program. All instructors provided timely feedback and were great to work with on my educational goals and plans. I would recommend the program to anyone and have enjoyed it.
