**Subject:** Re: Field experience

For my class I would like them to do Math activities covering the following skills: Metric measurements, Outcomes and Probability, and/or Data and Graphing. They can check the standards for these skills.

**Subject:** Field experience

Hello All,

I am writing to ask about field experience coming up in April. As you may or may not know, I arranged with Mr. Laughrey to come after spring break and TCAP so that we would not take any of the preparation time away from you. The dates are April 20, 22, 27, 29. April 22 is Earth Day and I would like to have my students in all three grades do some Earth Day type activities, but for the other days if you have something you would like them to cover, please let me know. I don't just want to show up with random 'stuff' to do. So, if you have a spare moment (I know...) tell me your pleasure.

Patricia Hewitt
