Importance: High

Everyone,

Since we're changing the name of the major for EDAS, this greatly impacts several issues. I need to get everything revised now so I want to clarify with you what I need to do to make your changes correct. Please let me know if you have a question or totally disagree.

1. Since we're changing the major I have to obtain a new major code (for Banner). If not, from this point forward everyone (present and PAST) students' information will show Educational Leadership. Example, if someone graduated in 2005 in EDAS and requests a transcript, their transcript will say M.S. in Education-Major in Educational Leadership even though they did not go through the new curriculum of courses. So, I have talked with Academic Records and the new major code will be Educational Leadership (5050). Only those who start the new program's transcripts will have Educational Leadership listed as major. All other folks will say Education Administration & Supervision. To me, this is more in line and what really should be done. You can tell me if you think differently.
2. Since we're changing the major name, the discipline code really needs to be changed to be more in line. So, all courses that are currently listed with a prefix of "EDAS" need to be more related to the new major name. The register's office is verifying what has been used in the past so we don't duplicate a prefix. I recommended EDLD (Educational Leadership). I will process all the changes you have provided but rather than the course being EDAS 715 it will be EDLD 715.
3. The main thing we need to consider is this.....if we change everything to Educational Leadership that means we can never go back to EDAS. Is this okay with everyone?

I know this is a lot of logistic information that you're probably wondering "Why don't she just do the stuff" but I want everyone to see how small changes impact everything so everyone is clear. I'm about to start getting everything typed and it takes an enormous amount of time. You'll see what I mean when the paperwork goes through committee. I just want to make sure you're ultimately getting what you want for your program.

Let me know if you have questions or concerns.
