Discover unlimited possibilities, unexpected experiences, unbelievable accomplishments, unique personalities, who you want to be, what you want to achieve, where you want to go.
I want to improve quality of life.

“I love to find new things and make new medicines. I would love to create a new medicine to cure something like the common cold. That’s really where my heart lies is in research,” says Joseph Zitnyar. His lecture courses and hands-on laboratory experiences at UT Martin are preparing him not only for the scientific world of chemistry, but also for the rigorous coursework required of pharmacy students. “As much as I love the subject (chemistry), these courses are not easy. It’s been tough, but it’s preparing me for the future. If I get a strong foundation here, it will make the transition into pharmacy school bearable. I feel like my professors are laying a good groundwork for me.”

I want to be influential in the lives of children

Riley Rich is majoring in both English and history and hopes to obtain her teaching certifications soon after graduation. But she is aiming a bit beyond the boundaries of the American school system; she wants to teach in Italy. “I’d like to move to Italy and either teach children living on American military bases, or teach Italian children to speak English,” said Rich, who fell in love with Italian culture during a 10-day summer trip in 2012, a belated high school graduation gift from her parents. In addition to her regular coursework, Rich is also a University Scholar, the highest academic honor given at UT Martin, and is an active part of that organization. She serves as co-editor of the program’s publication, “The Scholar,” and holds a position on the program’s executive council.

When you choose to live on campus, you’re choosing more than just living quarters. The university’s residential experience is a close-knit community, with accessibility to class, technology, campus events and dining facilities.

First-year students must live on campus unless commuting from the home of parents or legal guardians within a 50-mile radius, so we make sure that campus living is a positive experience.

UT Martin provides a staff of resident directors and advisers whose purpose is to attend to the needs of student residents. Campus health services, the Student Recreation Center, food services, the bookstore, swimming pool, library, computer labs, gymnasiums and recreational facilities are within walking distance. Hall associations plan and organize intramurals, social activities, lectures, discussions and hall and campus competitions.

UT Martin is located in a college community and is among the safest public four-year institutions in Tennessee. The Department of Public Safety patrols the campus 24 hours a day, 365 days a year.

UT Martin offers an emergency text-messaging system.

Residence halls offer I.D. card access, security cameras and resident assistants.

Buildings and walkways are well-lit with emergency phones located around campus.

UT Martin has upgraded its lighting system to provide a brighter, safer campus.

Volunteer Community Hospital is located adjacent to the campus.

Air Evac Lifeteam bases an aeromedical helicopter team near the Martin campus.
333 yards to the center of campus: a comfortable 4.25-minute walk.
