Now you can study to become a certified healthcare professional at your own pace and within your schedule. The Phlebotomy Technician ONLINE program is offered by UT – Martin in conjunction with Health Ed Today with interactive learning modules, 24/7 mentoring, learning exercises, labs, and a student portal with career resources. To learn about this program and to enroll visit Health Ed Today – UT Martin.

The Phlebotomy Technician Profession
The phlebotomist is a vital member of the clinical laboratory team, whose main function is to obtain patient’s blood specimens by venipuncture and microcollection for testing purposes. Phlebotomists are employed throughout the healthcare system including in hospitals, neighborhood health centers, medical group practices, HMO’s, public health facilities, veteran hospitals, insurance carriers, and in other healthcare settings. The demand for phlebotomy technicians has increased substantially with the overall complexity of healthcare services and the risks of infectious disease. Current healthcare industry experts predict a 15% increase in phlebotomy jobs by 2018.
