Science Superheroes  
*Donna Burrus*

Ever thought YOU would be a Superhero? Join me this summer for a science superhero adventure as we fly into the world of science. You will use your most important power - curiosity - as we discover the many wonders of the natural world. Get ready to discover the world of invention and challenge yourself in fun hands-on STEM (Science, Technology, Engineering, and Math) activities. CURIOSITY - millions saw the apple fall, but Newton asked why. You can too.

All Aboard!!!  
*Megan Burnett*

Anchors away as students set sail on a reading adventure around the world. As our sailors travel the world, we will explore different book genres and stories from different countries. Our worldly craft-ivities focus on story elements, book structure, writing, and comprehension strategies, allowing students to excel next school year. Hold on to your hats ... off to great places we go!

Imagination Station  
*Cathy Stanz*

Doesn’t everyone love ART? Bring your best imagination and get ready to paint, draw, print and weave! Oh, yeah, we are going to get messy, but we’ll be having a blast! Bring a big shirt to cover up for those messy days!
