This information sheet presents a numerical list of all microfilm held by the WTHSC. Entries are strictly summary listings. It is possible for a group of records to be divided into several locations across in the film series since film usually arrives in batches and is filed sequentially at the time it is acquired or processed. Users should prefer to consult the library catalogue for additional information, and look at the other microfilm information sheets for specific counties.

Book and film holdings of the West Tennessee Heritage Study Center may be searched via the Internet by pointing a browser to <<http://wthsc.utm.edu>> and following the link to the Paul Meek Library catalogue.
