

Advanced Cheer-Kelsey Quinn

If you have cheerleading experience, this is the class for you! You will learn a short routine composed of a cheer, dance, and stunts!

Advanced Karate-Rick Conger

Want your child to continue learning the exciting skills of traditional karate? This class is designed for the student that has had basic Karate at Kid College or has had some martial art experience. The physical skills of karate include stretching, coordination, balance, and reactions. The advanced karate student learns advanced stances, blocking, punching, and kicking along with putting these skills together into preset routines that help the student develop the fundamentals of traditional karate.

Art in 3-D-Hilary Webb

Tired of making flat art? Bored with paper and canvas? It's time to go up and out with three-dimensional art. What is 3-D Art? It is art that can be seen from all sides is three-dimensional, such as sculptures, models, and clay artworks. Students will build it, sculpt it, assemble it, stack it, and put it together with a variety of art materials.

Art Rulebreakers-Hilary Webb

Go beyond the normal and break the traditional art rules! Throw out the pencils and paintbrushes and learn about unique, adventurous, and shocking ways to make art. Have you ever made art without using your hands? What about making art with things you find in a toy box? Messes and masterpieces will be made!

Basketball-JB Suiter

Play games like Gotcha and Simon Says (with a twist), and learn how to dribble, pass, and shoot!

Beginner Cheer-Kelsey Quinn

This class is an intro to cheerleading! We will focus on the fundamentals of motions, jumps, and vocals. You will learn some sideline chants and crowd cheers that will help you cheer on your favorite teams!

Beginner Karate-Rick Conger

Want your child to develop self-confidence and self-discipline while learning the exciting skills of traditional karate? The physical skills of karate include stretching, coordination, balance, and reactions. The karate student learns stances, blocking, punching, and kicking along with putting these skills together into preset routines. This is a fun and energetic class that challenges both the mind and body.

Builder's Workshop-Allie Baker

Welcome to Builder's Workshop! In this class YOU are the woodworker. We will learn all the tips and tricks of safety in the workshop, but also have tons of fun building your very own Marshmallow Launcher! We can't wait to see you!

Candy Crafters-Allie Baker

Calling all candy lovers!! Join us for a fun-filled week of learning how to make your own candy including Lego Gummies, Pop-it Chocolate, Rainbow Suckers, and even Cotton Candy! We can't wait to see you in the Candy Factory!

Comic Book Classics-Rachel Winstead

Ready to create your own comic? That's exactly what this class is about. Draw, color and make your own story line. Your characters can be unique like no other has seen. Your comic, your masterpiece. Let the story begin.

Cooking With Ms. Brenda-Brenda Black

Prepare and cook your own food, and of-course enjoy! We will learn the basics about ingredients such as where they come from and how to cook with them. Also, about safety in the kitchen.

Crafty Scientist-Sheena Scott

Let your creativity shine! Science can be fun, hands-on, creative, and cool! Models and drawings are an important part of science in the real world. Let's explore science concepts through projects while creating art. Students will create and design their own masterpiece to take home.

Dance party with the Skyhawks Dance Team! -Catey Henderson

Come enjoy a class of fun dancing with the UT Martin Skyhawks Dance Team! Everyone will learn a short dance to perform on the day of open house! There will be good music and games!

Drawing Masters-Hilary Webb

For the kid that loves to put the pencil to the paper! Students will learn easy tricks to take their drawing skills to the next level. They will enter the world of imagination as they use form, value, texture, perspective, and proportion. Students will work with pencils, colored pencils, markers, pastels, and charcoal.

Everyone Loves a Spa Day! -Mary Perry

Taking time for yourself is healthy in so many ways; it is very enjoyable, too. Join me for manicures, pedicures, facials, and massages--oh happy day! Keep in mind we will share this time together, so be prepared to interact with each other.

Farm Animal Care-Stephanie Virgin

Students will get hands on experience learning how to care for a livestock guardian dog, a chicken, a goat, and a pony on the farm.

For the Love of Pet TREATS-Gabrielle Price

This class will help kids learn how to make treats for different pets. These animals may include dogs, cats, birds, and guinea pigs. It will help teach kids how to clean up their messes and how to be safe around the kitchen. While some treats are baking in the oven, we will talk about each animal's diet and how much each of these treats should be given. Each recipe is easy, and it will be really fun to bring home some treats for some pets!

For the Love of Pets-Priscilla Price

For the Love of Pets is designed to teach children how to care for and play with a variety of common pets. Puppies, kittens, fish, turtles, and guinea pigs oh my!!! So much to learn, so much to love! We will spend each day learning what it is like to feed, bathe, clean up after, and love a different pet safely! Not only will you learn the basics of pet care but also some fun facts. Did you know turtles' breath out their butt? By the end of Kid College, you will have the opportunity to get a new pet of your very own (with mom and dad's permission of course) that you will know how to care for! Join us for some fun and let's learn how to love our pets!

Fun Science-Brenda Black

Come enjoy the fun of science, create your own crystal and many more hands-on experiments. Hey, have you ever eaten an experiment? Let's do it.

Groove out with the Skyhawks Dance Team! -Catey Henderson

Come dance with the UT Martin Skyhawks Dance Team! You will learn a short dance to perform on the day of open house! We will play fun games and groove out to some popular music!

Inspired Illustrators-Hilary Webb

Explore the world of illustration and bring the words you read and write to life with your own illustrations. Students will illustrate some of their favorite tales, as well as write and draw images for their own stories. The class will enhance drawing, reading, & creative writing skills in an artistic and inspiring way.

Junior Chef Pizzeria-Allie Baker

Are you ready to be a chef? In Junior Chef Pizzeria, we will learn how to make homemade pizza, calzones, cheesy bread, and even DESSERT pizza! So put on your chef hat, grab your apron, roll up your sleeves, and join us for a pizza-making extravaganza!!

Let's Get Personal-Mary Perry

A diary is a person's safe place to share his/her frustrations, joys, fears, and experiences. If it contains your thoughts, it should reflect who you are. Think glitter, think pictures, think paint, think whatever you imagine as representational of you! Let's create your own personal writing space and experience the power of self-expression.

Making Honey-Stephanie Virgin

Student will learn the best flowers to plant for honeybees. They will also learn how honey is extracted from the hive and put on in a jar to enjoy!

Martin's Got Talent-Mary Perry

Can you sing? Can you dance? Can you tell a clever joke? Do you have a message to share with others? Let's get your talents out there on the social media platform Tik Tok! You do not have to have your own individual accounts to participate in the fun.

Myth Busters Lab-Sheena Scott

What is fact and what is fiction? Put your curiosity to the test! Explore science through experiments to bust myths with easy to find materials. Does this sound like fun to you? It's time to get creative and separate truth from myth! Put on your lab coat and come to the Myth Busters Lab! Please bring a large shirt to use as a science lab coat to protect your clothing.

Nerf Target-Rachel Winstead

Hone in your sights with this fun target class. Challenge yourself and use your skills to let the darts fly. See if you're steady enough to mark the bullseye.

Out-Door & In-door Fun! -Brenda Black

Let's play games and makes things out-doors and in-doors. We will make our own snack.

Painting Masters-Hilary Webb

For the kid that loves to put the brush to the canvas! Students will build up their painting skills with fun and unique supplies and techniques. They will experience the excitement of colors, textures and different styles of painting using watercolor and acrylic paints to create their own masterpieces just like many famous artists past and present.

Photography Pros-Hilary Webb

One, Two, Three...Say Cheese! Students will take their photography skills to the next level with lessons on focusing, distance, lighting, choosing subjects, changing angles, forced perspective and more. They will be on the move for a photography scavenger hunt, learn how to hand-tint a black and white photo, and practice optical illusions in the quad. Each student must bring a photography device, such as a phone, tablet/iPad, or digital camera.

Slime Time-Rachel Winstead

It's time to make slime. Ooey, Goey, Stretchy and Slimy with all colors from red to green this will be one of the most exciting classes ever seen.

Swiftly Thrifty Bracelets-Rachel Winstead

Arts and crafts at its finest with these bracelets. Trendy and stylish and fun. Pick a daily theme and make you one. For you or to share we cannot wait for you to be there.

The Candy Lab-Sheena Scott

Candy, Candy, Candy!!! The Candy Lab is a great place to learn about science concepts while experimenting with common candy. Sweets and other tasty treats will be used in the science lab to create reactions, models, and so much more. After the fun of experimenting, kids will take home the tasty results.

Wiffleball Takeover-Tate Bell

1,2,3 strikes and you're out! Come take Whiffleball Takeover and learn the ins and outs of whiffleball and baseball!

Yoga Adventures-Angie Mackewn

Do you want to be a warrior, a tree, a frog, or a cat? Yoga is a fun way to help you get stronger, more flexible and learn how to relax. We will play games while learning yoga poses, breathing, and relaxing. You can bring your own yoga mat and eye pillow, or one will be provided for you. If you want a towel, you can bring one. You can practice in your bare feet, or you can wear socks.
